COMMISSIONED PAINTING PROCESS

- Communicate/brainstorm your painting ideas and send any relevant photos of your desired scene and/or interior space to Emily.
- Pick your painting size and coordinate your timeline with Emily. If you are unsure of what will work best with your space, Emily can help with recommendations
- A formal contract will then be created to outline pricing, taxes, due date and delivery logistics then it will be reviewed and signed by both parties.
- A deposit of 50% of the painting price is due to reserve your spot on Emily's schedule. The final 50% + tax (if within Colorado) will be due upon completion. The contract will clearly list the painting due date. This can be paid via zelle, venmo, paypal, cash app, cash or check (in order of preference).
- If desired, Emily will create sketches and digital mock ups to help you visualize your ideal composition and colors. Once a direction is approved, Emily will use this as a guide for the painting.
- Client may request a hand painted message on the back of the painting if desired - included in the cost.
- As the painting date gets closer, Emily will communicate with the client with updates about their piece. Emily will share images and videos of the piece as it gets close to completion.
- The client may request any small changes at this time. Emily will ensure that the client is absolutely in love with the piece before it is considered completed.
- Emily and the client will coordinate shipping, delivery or pick up of the piece. Shipping or delivery costs will be incurred by the client.

THANK YOU, please reach out with any additional questions about the process.
